PROUD SUPPORTER OF WE ♥ YOU connie FOUNDATION

WE LOVE YOU CONNIE FOUNDATION

A bright star was lost in the Guglietti Family when daughter Connie succumbed to a brain stem tumor called D.I.P.G. in 2016. With much love and in her honour, the We Love You Connie Foundation was established in 2017 to take action in making a healthier future for children with brain cancers. Important new research and clinical trials are now receiving funding, and 100% of every dollar donated will go towards improving children's health.

The Guglietti Family, together with many generous supporters of the We Love You Connie Foundation, are extremely proud to announce that **$11.5 Million has been commited to date** with over **$8 Million** already donated to specific neuro-oncology programs in the world's leading hospitals; for improving care, supporting most promising research trials, and future CURE of children's brain cancers, namely DIPG.

The Guglietti Family appreciates all donations that have been sent in Connie's honour to the We Love You Connie Foundation and thank the community in joining in on making the future of our children's lives healthier.

"There is no footprint too small to leave an imprint on this world."

I am home.

At Rosehaven Homes, the feeling of coming home is a special one, and it is one that animates everything we do.

It drives our people to go the extra mile.

This means that everyone in our company, from our president to the architects, from the designers to the sales staff, to the tradespeople hammering each nail, has bought into the philosophy that they are not just creating a home, but something more.

It inspires innovation.

Our team works tirelessly to ensure that every home in every community is built to the high standards we have set, and continue to maintain, since 1992. We excel in what we do, and we bring unique ideas to our work to meet the challenges we face every day.

It pushes us to be not only better, but the best.

We will never stop at 'good enough.' Perfect corners, beautiful accents, stunning curb appeal — it's a culmination of everything we do, large and small. No detail is left unattended.
